# AGURCHAND MANMULL JAIN COLLEGE

(A Unit of Sri. S. S. Jain Educational Society)

Affiliated to the University of Madras | A Jain Minority Institution

Re-Accredited by NAAC

Meenambakkam, Chennai – 600061

## ENTERPRISE RESOURCE PLANNING (ERP) POLICY

### I. Background:

In the digital age, the strategic use of technology is fundamental to achieving operational excellence. Agurchand Manmull Jain College recognizes the critical role of our ERP in enhancing our academic and administrative capabilities. This comprehensive policy is crafted to govern the access, usage, and management and ensure security, integrity, and efficient use of the ERP to support the institution's academic and administrative functions effectively.

### II. Objectives:

1. ERP is the operational requirement of Agurchand Manmull Jain College to provide state-of-the-art information systems and electronic communication services (via Internet and intranet) to enhance the workflow and carry out the administrative activities of the institution effectively and efficiently. For this purpose, the institute has implemented the ERP system
2. Everyone with access to the computer and the internal network can access to the ERP. This includes the use of all software features with necessary authorization. While the ERP is a great resource of our organization, It is the responsibility of each employee/ student to use this resource responsibly and respectfully.

### III. Scope:

- a. **Integration of Modules:** It addresses the integration and utilization of various ERP modules, such as student information systems, finance and accounting software, HR management systems, and procurement systems, to ensure seamless data flow and operational efficiency.
  - b. **User Roles and Permissions:** The policy defines user roles and permissions within each ERP module, ensuring that access is granted based on job responsibilities and the principle of least privilege.
2. **Data Management Protocols:** It outlines protocols for data entry, validation, storage, and retrieval, ensuring data integrity, confidentiality, and compliance with data protection regulations.

## ENTERPRISE RESOURCE PLANNING (ERP) POLICY

3. **Security Measures:** The policy includes provisions for implementing robust security measures, such as encryption, access controls, and monitoring tools, to safeguard against cyber threats and unauthorized access.
4. **Training and Support:** It mandates training programs for ERP system users to ensure they are proficient in using the system effectively and securely. Additionally, it provides ongoing support and resources for users to address any issues or concerns.
5. **Policy Enforcement:** It defines procedures for enforcing compliance with ERP policies and procedures, including consequences for non-compliance, such as disciplinary action or loss of system privileges.

### **IV. User Access and Authorization**

#### **1. Access Control**

- a) Access to the ERP system is granted based on job function and role, following the principle of least privilege.
- b) Users must receive proper authorization from their department head and the ERP system administrator before accessing the system.

#### **2. User Responsibility**

- a) Users are responsible for the security of their credentials and must not share them with others.
- b) Any change in a user's role or termination of employment must be promptly reported to ensure timely modification or revocation of system access.
- c) A self-declaration form is attached with this policy (Appendix-A) which should be submitted by all staff to policy implementing department.

#### **3. Data Management and Integrity**

- a) Users must ensure the accuracy, completeness, and reliability of data entered into the ERP system.
- b) Any data errors or inconsistencies must be immediately reported to the ERP system administrator.

Affiliated to the University of Madras | A Jain Minority Institution

Re-Accredited by NAAC

Meenambakkam, Chennai – 600061

## ENTERPRISE RESOURCE PLANNING (ERP) POLICY

### **4. System Security**

- a) Users must comply with all security policies and procedures to protect the ERP system from unauthorized access, disclosure, alteration, destruction, or misuse.
- b) Regular security audits will be conducted to ensure compliance with this policy.
- c) The entry/ exit points of internet are protected by firewall
- d) All authorized users are provided with a username and password to login into the ERP and access the required features
- e) Each user has features defined as per the departmental job role and requirement

### **5. Training and Support**

- a) All users are required to complete ERP system training before accessing the system.
- b) Ongoing training will be provided to ensure users are aware of system updates, new features, and best practices.

### **6. Usage - Acceptable Use**

- a) Access is provided 24/7 for employees and students of Agurchand Manmull Jain College
- b) The ERP system must be used solely for official institutional purposes.
- c) Unauthorized use, including but not limited to personal use, committing fraud, or infringing on intellectual property, is strictly prohibited.

### **V. Do's**

1. Additional software features can be requested and shall be allocated once the Principal/ Dean approves the need
2. Each user shall be given necessary (and restricted) access to the ERP. It shall be mandatory to follow the access limits strictly
3. Employees shall be held responsible for inappropriate use of information, which they have access to. All passwords must be confidential and computers shall be locked/ logged out from while away
